## Hygiene Formula

### SUGGESTED USE

- ▶ Supports oral hygiene and overall mouth cleanliness
- ▶ Aids in the cleaning and care of gums
- ▶ Assists in the healing of bit sores
- ▶ Promotes recovery from mouth ulcers and minor oral lesions
- ▶ Encourages gum healing and helps prevent infection following teeth extraction(s)
- ▶ Helps maintain cleanliness of surgical sites after procedures involving wires or external fixators

### HOW TO USE

- ▶ Shake well before use. Remove the cap from the bottle and attach the included soft-top nozzle. Always replace the cap after use.
- ▶ **To apply:** gently lift the animal's lip and insert the soft tip between the gum and cheek. Squeeze the bottle while slowly withdrawing it, allowing an even layer of gel to coat the gums and teeth.
- ▶ Suitable for daily use.

### KEY PRODUCT FEATURES

- ▶ Hypochlorous acid hydrogel
- ▶ Alcohol free
- ▶ Easy to use applicator bottle

### DID YOU KNOW?

**Hypochlorous acid (HOCl)** is a naturally occurring molecule produced by the body's white blood cells to fight infection and promote healing.

**Effident** harnesses this powerful, biocompatible ingredient in a gentle hydrogel formula, making it ideal for soothing oral tissues, reducing inflammation, and supporting healing without irritation.
