Racing Pellets

SUGGESTED USE

- ▶ During periods of intense training and racing
- ▶ For all horses during times of stress, e.g. travel
- ▶ Supplementation around races to optimise performance & recovery
- ▶ For horses that are 'flat' or underperforming
- ▶ For horses recovering from illness or injury

KEY PRODUCT FEATURES

- ▶ **Branch Chain Amino Acids (BCAAs) Valine & Isoleucine** to aid muscle recovery after hard training or racing
- ▶ **B Vitamin Complex** to support appetite, energy production, Red Blood Cell production & absorption of other nutrients
- ▶ Antioxidant cocktail including **Vitamins A & E, Selenium, Copper & Zinc** to help combat oxidative stress

HOW TO USE

Give daily in feed.

Horses & ponies > 300kg:

150g (1 scoop)

Horses & ponies < 300kg:

75g (half scoop)

Each scoop contains approx. 150g

No further supplementation required. Please consult an Equine Nutritionist or Veterinary Surgeon before using in conjunction with other supplements.

DID YOU KNOW?

The amino acid profile in **Racing Pellets** is ideal for those racehorses that need to build muscle or topline.
