## HOW TO USE

### **Horses & ponies > 300kg:**

*Give 50g (2 scoops) in feed daily for 2 days before competition and continue for 3 days after.*

### **Horses & ponies < 300kg:**

*Give 25g (1 scoop) in feed daily for 2 days before competition and continue for 3 days after.*

(Each scoop contains approx. 25g)

## KEY PRODUCT FEATURES

- ▶ High in **Polyphenols** to support the immune system
- ▶ **BCAAs**, including L-Valine, L-Isoleucine & L-Leucine to aid rebuilding & repair of muscle tissue after racing
- ▶ Antioxidant cocktail of **Vitamins E & C, copper, zinc & selenium** to help combat oxidative stress

## DID YOU KNOW?

A speedy recovery starts with the right nutrition **BEFORE** the event. The goal is to minimise excessive inflammation, combat oxidative stress and ensure the horse returns to work feeling refreshed and revitalised soon after leaving the arena.

**Re-Zest** is formulated to do just that, with a powerful combination of ingredients. Its potent antioxidant cocktail works to protect cells, tissues, and organs from oxidative stress, while Omega-3 essential fatty acids, vitamins, minerals & BCAAs deliver a comprehensive recovery solution.

## AVAILABLE SIZES

LASTS 15 DAYS

**SUITABLE FOR  
ALL HORSES**
