AVAILABLE SIZES

Box of
7 x 50 g
/ 1.7 oz
sachets

LASTS 7 DAYS

**SUITABLE FOR
ALL HORSES**

KEY PRODUCT FEATURES

- ▶ **BCAAs**, including L-Valine, L-Isoleucine & L-Leucine to aid rebuilding & repair of muscle tissue after racing
- ▶ High in **Omega-3 DHA** to assist the reduction of post-exertion muscle soreness
- ▶ Antioxidant cocktail of **Vitamins E & C, copper, zinc & selenium** to help combat oxidative stress

DID YOU KNOW?

A speedy recovery starts with the right nutrition **BEFORE** the event. The goal is to minimise excessive inflammation, combat oxidative stress and ensure the horse returns to work feeling refreshed and revitalised soon after crossing the finish line.

Recovery-7 is formulated to do just that, with a powerful combination of ingredients and active yeast to aid nutrient absorption. Its potent antioxidant cocktail works to protect cells, tissues, and organs from oxidative stress, while Omega-3 essential fatty acids, vitamins, minerals & BCAAs deliver a comprehensive athletic recovery solution.
